**TCC11 Record Posted on Commission Website and Confirming Intersessional Discussions
Post-TCC11 for Bali**

Dear All,

Please be advised that the record of the TCC11 meeting and attachments have now been posted on the website today for CCM and Observers to review. Could we please have any comments you might have by **Friday 6th November 2015**.

CCM and Observers are reminded that the text for the recommendations placed in the decision boxes are based on the language as was agreed on screen during the meeting, or as was stated as the conclusion of an agenda item by the TCC Chair/Vice-Chair (as captured by the rapporteur). In keeping with past practice we ask members to comment on their own text and not that of others.

As required by TCC11, the Secretariat provides below a list of the activities that CCMs had undertaken at TCC11 to do before WCPFC12, and a point of contact for each of those activities:

Document reference and as applicable relevant TCC11 document	Contact point
TCC11 recommends that an intersessional working group develops a list of obligations to be assessed by CMS in 2016 prior to WCPFC12, noting the need to review bycatch issues and the potential to develop a rolling schedule of obligations to be assessed on a regular basis. TCC11 is grateful to the United States for leading this work.	Emily Crigler United States of America emily.crigler@noaa.gov +1 808 725 5036

The CDS-IWG encouraged the FFA Secretariat to continue to lead the development of CDS draft standards using Attachment A of DP04 as a basis, and taking note of comments and questions provided by CCMs during the discussions at CDS-IWG02 and the Guiding Principles in the CDS-IWG TOR. CCMs (which includes Cooperating Non-Members) and other interested parties were requested to provide comments on WCPFC-2015-CDSIWG02-DP04 to FFA Secretariat, via WCPFC Secretariat, to further improve the paper (deadline **31 October 2015**)
