

# 2018 Strategic Investment Plan

## Introduction

1. The Western and Central Pacific Fisheries Commission (WCPFC), at its 14th meeting in Manila, Philippines, agreed to the development of a Strategic Investment Plan.
2. The purpose of the Strategic Investment Plan is to match capacity and capability requirements of developing states and territories with appropriate investment strategies as outlined in the following diagram:

## Objectives

3. The objectives of the Strategic Investment Plan are to support:
  - effective input and participation of member developing states and territories in the meetings of the Commission; and
  - development of management and technical capability and capacity in developing states and territories to enable them to implement obligations under the WCPFC Convention and Conservation and Management Measures (CMMs).

## Funding

4. Funding options are illustrated in the diagram above and the WCPFC Secretariat has a role in ensuring capacity needs identified in this Strategic Investment Plan are addressed over the coming year. This includes provision of information to developing state and territory members on how to access funds and notification to members when funds are needed. This will assist the Commission as a whole meet the requirements of Article 30 of the Convention<sup>1</sup>.

<sup>1</sup> Convention on the Conservation and Management of Highly Migratory Fish Stocks in the Western and Central Pacific Ocean, 2000

**Capacity needs recommended by the Technical and Compliance Committee (TCC)**

5. The following Capacity Assistance Need areas were recommended by TCC14 in the Compliance Monitoring Report:

Kiribati for 5% ROP observer Coverage	Capacity Development Plan (CDP) submitted to TCC14	Assistance and funding is being sought from SPC
New Caledonia for VMS assistance	CDP submitted to TCC14	WCPFC technical assistance in country will be provided to New Caledonia in first quarter of 2019. New Caledonia has requested to attend a FFA VMS training, this has not been arranged as of yet.
Indonesia for Scientific data provision	CDP submitted to TCC13	Assistance and funding is being sought from SPC

**Capacity needs identified through WCPFC Annual Report Part 2**

6. The following areas of capacity assistance were identified by CCMs in their Annual Report Part 2 RY2017 as identified in paragraph 28 of the Compliance Monitoring Report:

<b>CMM</b>	<b>Notes about types of assistance requested</b>	<b>CCM</b>
<b>CMM 2006-08 - High Seas Boarding and Inspection</b> <b>CMM 2017-02 - Port Inspections</b>	Some assistance has been received in work attachments, and supply of boarding gear. Additional assistance is needed in 1) information system (licensing and permitting database); 2) boarding and inspection database; 3) centralized database; 4) more staff for monitoring and data collection.	Fiji
<b>CMM 2013-07 04-05 - Capacity development for personnel</b>	Some assistance has been received in investigation training. Additional training is needed, including in work attachments, for database and data analysis. Assistance is needed in understanding CMMs. Need additional observer training and coordination Funding for international meetings	Fiji Solomon Islands Vanuatu
<b>CMM 2013-07 10-11 - Capacity development for MCS activities</b>	Some assistance has been received in investigation training and attachments. Additional resources needed for purchase of additional patrol assets (helicopters/aircraft and vessels). Assistance is needed to conduct international compliance inspections Assistance and support is needed to recognize the efforts that small islands with limited capacity make to comply with all CMMs and to investigate any alleged infringements by their vessels or occurring in their waters.	Fiji Kiribati
<b>CMM 2017-06 - Seabird mitigation</b>	Assistance in developing of seabird mitigation plan	Vanuatu

**Capacity needs identified through the SRF Intersessional Working Group process**

7. An analysis of conceptual capacity needs to meet the objectives of the Strategic Investment Plan (see paragraph 3 above) was conducted and WCPFC members were asked to rank these needs in terms of priority.

8. Current development assistance was identified from open source data and assessed against each capacity need area. A summary of the findings is provided at **Attachment A**. The broad conclusion was that nearly all capacity needs have a funding stream associated.

9. The main gap identified was an explicit mechanism to support effective participation. The following proposal is included in the Strategic Investment Plan to fill this void.

<b>Title:</b> Enabling effective participation in the WCPFC
<b>Obligation:</b> Article 30
<p><b>Capacity Building Assistance Needed:</b></p> <p>Support to effectively input and participate in meetings of the WCPFC. This includes support for:</p> <ul style="list-style-type: none"> <li>• travel to the Science Committee, the Technical and Compliance Committee and/or the main meeting of the Commission, and</li> <li>• in-country capacity building prior to and post WCPFC meetings to help build capacity to engage and to institutionalise outcomes of the meetings (existing Secretariat support built into WCPFC budget).</li> </ul> <p>It is noted that the level of assistance required will vary between members, so should remain flexible to the needs of the country. This will depend on the sovereign interests of the member, including the scale of WCPFC fishery interests, the capacity of the administration to engage in the program and the priority afforded to this over other interests.</p> <p>Parameters around accessing the program will include:</p> <ul style="list-style-type: none"> <li>• limit to one participant per country per meeting (or as funding allows) – this is in addition to the one participant already funded for each meeting from the WCPFC operational budget</li> </ul>
<b>Timeframe:</b> Ongoing, annual calls by the Secretariat for participation in the funded program
<b>Cost:</b> up to USD300,000 annually
