LE HAUT-COMMISSAIRE DE LA REPUBLIQUE  
EN NOUVELLE-CALEDONIE

A

Mr Glenn Hurry  
WCPFC Executive Director

**SUBJECT** : Registration of authorized inspection vessels

**Enclosure** : 4 descriptions of Navy ships and 13 enabling decisions

**REF** : CMM 2006-2008

In the South Pacific, France is represented by two Government delegates for the "State's action at sea" who are the High Commissioner in French Polynesia, already registered by the WCPFC, and the High Commissioner in New Caledonia for the western part of Pacific (see annex 2). According to articles 12,13 and 14 of the conservation and management measure 2006-08 adopted at Apia on 15th December 2006, you will find attached, for registration of authorized inspection vessels and authorities, a list of four Navy ships based in Nouméa, available for control on high seas

These four vessels are the frigate "Vendemiaire", the two patrol boats "La Moqueuse" and "La Glorieuse", and one landing ship "Jacques Cartier". In compliance with French law dated 6<sup>th</sup> May 2010, commanding officers, executive officers and other accredited officers are allowed to control fisheries activities and fishing vessels and to establish infringements of fisheries regulations. These ships are clearly marked and identifiable as French Navy ships. Their commanding officers and officers "have received and completed training in carrying out boarding and inspection activities at sea in accordance with standards and procedures as may be adopted the commission". A special training will be organized each year with the New Caledonian fisheries service to improve knowledge about the measures adopted by the WCPFC.

The administrative authority for fisheries procedures is the High Commissioner in New Caledonia, representative of the French Government in New Caledonia. He is assisted for operational matters by the commander of the New Caledonia maritime area and, for legal issues, by the head of "Maritime Affairs" department in New Caledonia, who is also the New Caledonia representative at the WCPFC. He is fully familiar with the fishing activities.

I expect that all these informations will allow these four Navy ships to be registered as authorized vessels on the high seas by the WCPFC commission.

Yours sincerely,

Albert DUPUY
