Subject: Draft E-Reporting standards for observer data_JPcomments
Attachments: 160910JPcomments_WCPFC ER Data standards - Observer Data (v2-00 -- 31-07-2016 draft).docx; WCPFC ROP Minimum Standard Data Fields_with_#.pdf

Dear Kerry,

I submit Japan's comments on a draft E-Reporting standards for observer data as attached. For the reference I also attached the WCPFC ROP Minimum Standards Data Fields with fields #.

We found that some data required under the current ROP minimum standards were missing in the draft.

We are sorry to make only general comments in some section such as "1.5 set level data" due to lack of time; we would appreciate if you could understand our hard schedule. Thank you for your friendship and kindness as usual.

Looking forward to seeing you again in my second hometown!!

Regards,

Yujiro
